HOW YOU CAN AVOID BREAK-INS.

Park in a safe & secure spot

Choose a well-lit, busy area to park your car, ideally in a parking area with security cameras. When leaving your car, be aware of your surroundings and look out for suspicious activity.

Lock your doors & windows

Always make sure your doors are locked and windows are up when you park your car. If your car has an alarm system, make sure it's activated.

Take valuables with you

Keep your valuables out of sight, or better yet, take them with you. This includes wallets, phones, laptops, and other electronics.
